

Ridoy Hossain

Full-Stack Developer

Dhaka, Bangladesh — Open to Remote | contact.ridoyhossain@gmail.com | +880 1903602112 | github.com/RidoyHossain-01 | linkedin.com/in/hossainridoy01

SUMMARY

Full-stack developer with hands-on experience designing and building REST APIs in Node.js, Express.js, and PostgreSQL with Prisma ORM, JWT authentication, and bcrypt — alongside frontend development using React and Firebase to ship complete, working applications like ScholarStream. Comfortable owning a project end-to-end — schema design, authentication, API architecture, and deployment — with no direct supervision.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, SQL, Python (in progress)
- **Backend:** Node.js, Express.js, Prisma ORM, REST API design, JWT auth, bcrypt
- **Databases:** PostgreSQL (schema design, joins, indexing), NeonDB
- **Tooling / Deploy:** Git/GitHub, Vercel, Postman

PROJECTS

ScholarStream — Scholarship Application Platform React · Firebase • Designed a 3-role platform (e.g., student, moderator, admin) enabling students worldwide to discover, apply for, and pay for scholarships through a single unified flow.

- Built a secure payment flow for application fees, supporting 3 transaction states (pending, success, failed) to keep applications and payments in sync.
- Implemented a personalized student dashboard for tracking application status, managing profile data, and viewing payment history.
- Structured protected routes and authentication across routes so dashboard and payment data were only accessible to authorized, logged-in users.

EDUCATION

Apollo Level 2 — Web Development In progress *Full-stack curriculum: Node.js, TypeScript, Express, PostgreSQL, Prisma, REST API design*

Programming Hero — Web Development Level 1 Complete *Foundational curriculum: HTML, CSS, JavaScript, React, and core web fundamentals*

Govt. Tolaram College — B.A. (Honours) in English 2022 – Present
